"Woods are lovely, dark and deep.... But I have promises to keep and miles to go before I sleep and miles to go before I sleep!!!" - Robert Frost

In the wake of the unforeseen crisis, an unimaginable pandemic knocking at the threshold of the new academic session, a new fiscal year it appeared a complete blackout for the entire world. It seemed as if the Pandora's Box was literally reopened bringing, hopelessness, poverty, and despair. But like always the human spirit has revived itself like a Phoenix reborn and found out new solutions to carry on.....

Since evolution, it has always been the unconquerable spirit of human will, which has brought our journey from wheels to space missions, from caves to architectural masterpieces.

Being an academican, I firmly believe that this too shall pass...teaching mankind a few valuable lessons for life that success is only in mutual coexistence of all, one spark of positive thought can flood the world with light.

To create a positive aura of creativity, productivity, and fulfillment - a positive, dynamic and constructive involvement is a must.

Dear Students, it was this positive approach which enabled us all to act decisively to keep you involved in various productive activities which was conscientiously designed by the teachers for you.

It is an appropriate period to nurture yourself, explore your talents, pursue your passion and above all express your gratitude to all that you have received.

Hoping for a hearty and healthy future for all.
Stay Healthy Stay Safe!!!

Pioneers in "ONLINE CLASSES"

We Shine Because The Fire Inside Us Burn Brighter Than The Fire Around Us.

Designing new solutions to break the iceberg of the ongoing Corona Crisis, the SPSS Team crafted a perfect teaching and learning strategy through online virtual classes.

The students grasped the nouveau online learning curriculum and schedules along

Time is the scarcest resource and unless it is managed nothing else can be managed.

Don't watch the clock, do what it does, Keep Going

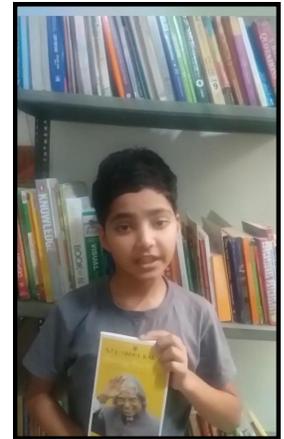

with support materials, videos, worksheets and online mock tests. The fixed time table honed the potential of the students following a purposeful daily regime. The neoteric venture has opened up unexplored vistas of modern teaching methodology gathering appreciations from both the parents and students.

WORLD BOOK DAY

Books play an important role as a teacher, guide, and friend in our life. Without books life is impossible. Books are the manual of life. Books align us with our career and life goals. Reading books is a natural therapy to reduce stress and balance

our thought process. We at Singhania inculcate reading habits in our students from the early years only as we believe "Today's readers are tomorrow's leaders." Stuck in lockdown students dwelled deep in reading and celebrated World Book Day reading to their heart's content.

Respected Principal Sir/Coordinator/Entire School team,

I am happy to have my ward as a student of your school. I appreciate the way you are concerned about your students' studies and overall development. I am satisfied with the way online classes are being conducted by the teachers.

I am sure that the hard work done by everyone during this period will pay positive results in the near future.
Stay safe n healthy

Mr. Vinay Gupta & Dr. Arpita Sharma,
P/O Vedang Gupta II – B

Wanted to drop you a thank you note for your hard work and dedication during this pandemic time. Your continuous motivation and encouragement have helped our son (Vedang Gupta) to continue his schoolwork without much hassle. The teaching strategy and your words of appreciation create a synergistic effect on Vedang's personality. The online videos and classes make him realized that school is still open and regularly he is doing his work. The introductory class taken on Zoom, left an impression on Vedang that my teacher can ask me about my work anytime. As parents, we are regularly motivating him to do extracurricular activities (Yoga, skating, learning new words of Sanskrit, making new toys from waste) with his daily assignment. One positive change I noticed in his personality, he is now more responsible and independent. So, we would like to thank you all, Respected Principal sir and Co-ordinator (Bedi ma'am) to develop an educational environment and especially you for taking out time and creating video content for kids so that they don't fall behind on their course.

Regards

M/O Aika Jain, I-A

Hii...i am khushboo.

Mother of Aika Jain studying in class 1 . The teachers here are really great n putting a lot of effort into the students in these online sessions. Apart from studies, equal focus is given on the other activities, and children are loving that and this is encouraging them to showcase their talents as videos and photos are asked for same. Ms. Hema ma'am is also really great and kind, speaking to her gives satisfaction, she is always there to solve problems or confusion regarding the work given.
I am really happy and satisfied.

Respected Principal Sir, Vice Principal Ma'am and Coordinators

We are thankful to you for this thoughtful idea of organising the live classes. It made our child use this quarantine time judiciously. It is also helping them in a great way as they will not lack in their studies as this is a precious year for them which is class 12th. We are indeed fortunate that our child has such great guides and mentors. A special note of thanks to Principal sir for initiating such a brilliant idea of providing online education.

Thank you

“It is the supreme art of a teacher to awaken joy in creative expression and knowledge.”

To commence with I would like to congratulate our multitasking teachers who put in their persistent and continuous efforts day in and day out and this was truly possible only working under the most efficient guidance of our Respected Principal Sir, who like a rock stood by us continuously encouraging, cheering and motivating.

Teachers full of energy chimed in every morning as per their schedule and the students were pepped up to watch their teachers.

Honestly, we feel proud and privileged to be a part of this esteemed brand. The credit of our joy multiplied when we received positive and encouraging feedback from our dear parents.

Assuring our continuous and untiring efforts for our future endeavours.

Till then

Stay Home, Stay Safe, Happy Learning.

EARTH DAY

2020 marks the 50th anniversary of Earth Day. This day gives a voice to an emerging public consciousness about the state of our planet. The current situation may be tense, but it is giving a chance to earth to heal itself. It's finally heaving a sigh of relief.

Singhanians as always lived up to the spirit of the day and involved in various activities to show their love and care for mother nature. They made posters, tied feeders for the birds and, vowed to always preserve the sanctity of nature and our planet.
