

Singhanians' Chronicle

August 22

ISSUE 66

"Decide what you want, and then act as if it were impossible to fail."

Dear Students... pursue your passion and see opportunity in every difficulty you face. Remember the road to success is always under construction. There is no difficulty that a human cannot overcome. Rely on yourself and you can overcome anything

All the best for your forthcoming Mid Term Exams.

Independence Day Celebration

The 76th Independence Day was celebrated at Sir Padampat Singhania School, Kota with gusto and patriotic fervour. The celebration commenced with the Flag Hoisting Ceremony by the Principal, Mr. Pravin Kumar followed by the National Anthem with great pride and patriotism. The school choir presented a musical rendition and students presented a beautiful dance that awakened everyone's feelings towards the motherland. Housewise Group Song

and Group Dance Competitions were organized on this auspicious day. Devyansh Garg, Anusha Kumra and Jaskirat Kaur delivered the Hindi and English speech respectively saluting the sacrifices of the freedom fighters. Principal, Mr. Pravin Kumar addressed the gathering appealing to their nationalistic spirit and urging everyone to take pride in being an Indian. The programme concluded with the School Song.

Janmashtami Celebration

The pious festival of Janmashtami was celebrated in the school with festive fervour.

The students of the Foundation Wing adorned themselves as Radha-Krishna & several musical and dance performances were presented by the

students and teachers to mark the birthday of Lord Krishna.

The school was decorated with Kanha theme and Krishna songs and bhajans echoed in the corridor. Various dance performances on the songs like Radha Nachegi, Govinda Aala Re

were performed and also there was a cute bhajan recital where little Kanha requested Maiya Yashoda "Radhika Gori Se Maiya Kara de Mero Byah...." The event culminated successfully with the speech of principal, Mr. Pravin Kumar.

Costume Day (Independence Day Celebration - Nursery to II)

Freedom has its life in the hearts, the actions, the spirit of men and so it must be daily earned and refreshed. Independence is something that is most valuable and no one can realize this better than Indians who got it after a long struggle. 15th August is a date to cherish and bow our heads in respect to those who martyred for the motherland.

The junior most wing of SPSS celebrated Independence in full grandeur. The students came dressed as different freedom fighters citing slogans of valour and courage. They walked the ramp and won the hearts of spectators. The cultural programme started with a patriotic poem by the

students of class Nursery. They also answered questions of the quiz based on freedom fighters and Independence Day. Students danced to the tune of various patriotic songs like Ay Watan Watan Mere, Bharat Humko Jaan Se Pyara Hai, Kandho Se Milte Hai Kandhe and also delivered speeches expressing their love for their motherland. Respected Principal Sir and Bedi Ma'am, Coordinator Foundation Wing, praised the efforts of the students through their addresses.

The programme concluded with a feeling of pride for our rich courageous legacy.

Inter School Debate Competition-2022

The SPSS Team outshone with their daunting performance at the Lions Club Debate Competition 2022. With clarity of thoughts and conviction in delivery, four of our dynamic debaters voiced their opinion on the topic - Nuclear Disarmament - The Only Solution To Peace.

Uditi Paliwal and Devyansh Garg

presented their articulated thoughts and both secured the 1st Position in English and Hindi Category respectively.

Vanshika Chauhan also bagged the Consolation Prize. The achievement was the result of the team work and dedication of the entire team and their mentors.

Maths Quiz –VI to X

Maths quiz was conducted on 26th August 2022 for classes VI to X. Students enjoyed witnessing the quiz. There were many questions for the audience also. The quiz was conducted in 5 rounds, Identification of Mathematician, Missing terms,

general Maths, Reasoning and Rapid fire. All 4 teams played very well. Pawan house was the winner with Sagar House as 1st runner-up and Surya House as 2nd runner-up .

Students participated enthusiastically.

Social Science Quiz

On 1st September 2022, Social Science Department organized an Inter House Quiz Competition for classes III to VIII in the school's lecture theatre. The students were divided into four teams of four houses, each team comprising of six students. The Quiz had various rounds like Talentine, Superheroes of India, Incredible India, and Fast and Furious. Children participated with a lot of zeal and enthusiasm.

All participants were seen participating very keenly and actively. This type of quiz helps students in showing their

hidden skills and gain meaningful experience. Participation in these types of activities inculcates self-confidence and enhances overall knowledge. Gagan House bagged the First position and Pawan House bagged the Second position.

Rakhi Making Activity

“Rakshabandhan, a unique bond of love and care which binds the soul of brother and sister.”

The festival of love and care, Rakshabandhan was celebrated in Sir Padampat Singhania School, Kota with a lot of enthusiasm as each student participated in Rakhi making activity.

Boys and girls, both came up with innovative ideas and made unique and beautiful rakhi. Each Rakhi was different in its way, made with thread, beads, paper and sequins and was a

piece of creativity adorned with love and care.

Coordinators were the judges for this activity and the parameters for judging were creativity and presentation and on the basis of this, the winners were declared.

Respected Principal Sir and Vice Principal ma'am congratulated the winners.

The activity was organized under the supervision of the Art Department.

Shape Hunt – Nursery to II

“Learning accompanied by fun creates the best educational experiences.”

From a rectangular door to triangular roofs and circular wheels—shapes are all around us. To give a better insight into the world of shapes little Einsteins of SPSS participated in an activity “Shape Hunt” It was organized by the SPSS Foundation Wing.

This easy, preschool shapes activity hunt was the perfect way to teach the toddlers shapes. We often do colours and shapes activities for pre-schoolers because they work on basic preschool shape recognition,

preschool colour recognition, sorting skills and visual perception.

A few interesting colouring shapes worksheets were given to the students.

They recognized and used the instructions to colour in different shapes given in the worksheet. During this activity, each and every child hunted for the shapes around them and made a pair with the shapes already shared

with them beforehand. It was an interesting and fun-filled activity for each one of them. The experiential learning not only helped them to learn about varied shapes but also helped them to identify and organize visual information. It is said that learning accompanied by fun has a better impact on the learners. Such activities foster intellectual skills and also engage the students fruitfully. The activity was appreciated by one and all.

What ought our schools and parents to learn from the world ?

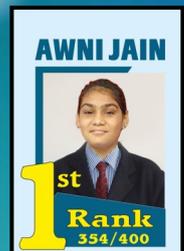

In some countries like Norway and others, intermediate schooling is of 3 years. That means instead of 10 + 2 they have 10 + 3. During the 3 years, you as a student have to decide, what will be your occupation after school. There are meetings and seminars held in a school that each student has to attend, and brainstorming sessions are conducted on a higher level. All the arrangements are documented on a prior basis. Counsellors are appointed, both students and counsellors interaction sessions are held, and their opinions are welcomed, then it has to be cross-checked that the student is not forced or influenced by his/her parents or friends to decide their next leap towards their future. Maybe they are confused or the syllabus is too tedious. In that case, the counsellor's role is very challenging they have to convince the student to opt for the course that they deserve. At that time it's the counsellor's role to identify the capabilities and guide them toward the right path accordingly. Apart from this, we are living in a country where a person is an adult at the age of 18 years and only then he/she is permitted to get a license and granted permission to elect his political candidate. Then the question arises, is the student capable to decide his future at the age of 15-16? Are their parents giving them the correct guidance? Now at this point, I would suggest a few things:-

In ancient India, we followed the "Gurukul" style of learning, where one could study Mother nature, morals, values and also learn how to be focused in life. Education was taught from adolescence. We are now following the western culture and neglecting our traditions and culture behind, whereas the foreigners are adopting our ancient techniques along with theirs. This is the loophole that needs to be acted upon wisely.
