

Singhanians' Chronicle

From the editor's desk -

March is a month of mixed emotions. It symbolises end of yet another academic calendar but it also represents a step forward to a new beginning. Things are finally returning to normal. The hope that next session will be in offline mode perked up student's enthusiasm and it was evident in the way they fared exceptionally well in their final term exams.

It's overwhelming to watch students learn and grow. Watching students spread with wings and take a flight to a brighter and beautiful tomorrow is the most beautiful moment in a teacher's life. Waiting for more such moments, it's signing off with the last update for this session.

Waiting to meet you all in the new academic session once again.

"Every new beginning comes from some other beginning's end." —Seneca

AUDITIONS

SUPER STAR SINGER

It is a matter of pride for the Singhanian Fraternity as Ms. Sameeha Bharti, a student of Sir Padampat Singhanian School got selected for the National Level Singing Competition, Super Star Singer, Season 2 by Sony Television. The talented

singer cleared two levels in 3yrs to 15yrs category and has made it to the third level. The outstanding performance of Sameeha Bharti was applauded by the Judges. The competition was organised in Shri

Venkateshwara International School, Dwarka, New Delhi. Respected Principal Sir congratulated the brilliant and enchanting singer Sameeha and wished her good luck in upcoming endeavours for her future.

The Silver Lining

At last the silver lining did appear and once again the school campus pulsated with euphoric cheerfulness of our adorable starlings, without whom the school seemed just another concrete structure- lifeless and mundane.

The transition of course has not been easy for the parent-teacher-student communities. We all emphatically agree that the school as an institution is indispensable to learning and that coming back to offline classes, sooner than later, is the right choice. A school's environment is significantly vital for students of all ages. The social honeycomb they weave in school with teachers and their peers, are valuable experiences, preparing them for life.

The perils of pandemic has given each one of us a fair chance to realize and respect the idea that the progress of an individual stays relevant in the progress of the community, society and the nation and on a larger picture the progress of the entire human race.

School is the a copious fountain that nurtures an individual who further weaves the web of global structure. A child not only acquires knowledge in the school edifice but learns the essential threads of group dynamics, develops interpersonal skills to live in a connected world.

We look forward to a happening session full of vibrance and vitality.
