

From the editor's desk -

A student should study hard to be successful at competitions but he/she should also play games and sports to enjoy health and vigour of life. The month of September is known for midterm exams and confinement to study rooms. But our students proved their grit not only in the field of academics but in real fields as well. They participated in various tournaments and won laurels by winning Gold, Silver and Bronze medals. September turned out to be a month of awards, received among thunderous clapping. It was heart-warming to watch our efforts to be the best, bearing fruits. We believe in enjoying the journey and God rewards us with beautiful destinations.
