

## From the editor's desk -

The month of February is usually a bag of mixed emotions for a teacher. On one hand, he/she is happy seeing the students take a leap and watch them spread their wings and fly to the next class, while on the other, the feeling of watching your babies move out of arms is an emotional experience. The emotion of kids become better in every sense takes precedence over every other emotion.

It is time to judge the knowledge acquired during the year. Gear up and all the best for the oncoming Annual Examinations. My dear students, put your best effort into exams and God will crown you with success.

for the session 2019-20 on this auspicious day.

The Principal, Mr Pravin Kumar congratulated the students for the phenomenal success.

We all feel we know everything, but exam is the real test of knowledge. Exams are the way of giving a test to our knowledge, exams give us a target and we can concentrate on our studies and learn our lessons properly.

Exams teach us many things like punctuality, improved writing skills, expressing our thoughts and opinions, and so on. Without examination, it is very hard to judge the real knowledge of an individual. The student as well, will lose their focus and motivation to study, in absence of these.

Remember, although a sheet of paper cannot determine our future but it can definitely enrich us with good respect, knowledge, experience and, challenges that lead to growth.

*Never stop learning,  
because life never stops teaching.*

Time, the greatest spirit, can be devil or an angel, a profound teacher and a discoverer. Walks with us if we go together but if we play on it, it might leave us nowhere.

Our life is a wheel of time, if its not good today it might get better tomorrow. Everything that happens is a matter of time.

All those seconds and minutes that control us whole life till the end, these same units loses its control over us, all goes in the bag of time.

People make money, prestige, mansion, relations best the thing that carves a man is his work and Time.

A person's work and time can make him/her an idler or an idol.

## POSITIVE ATTITUDE IS THE BEST ATTITUDE

A positive attitude is the result of positive thinking, positive ideas, and coming up with a new solution. The way you think, day in and day out, affects all aspects of your life. Learning to listen to your 'internal voice' will help you recognize your thought patterns and also teach that how we handle our stressful situations of daily living.

Many people have found that, when they tune into their internal voice, much of it is negative Thoughts like, "I could never do that" and "what if (fail)?" can seriously impact the way you behave.

Develop your positive attitude! Here are some ways to help you develop a more positive attitude:- listen to the internal voice. Divide one or more sheets of paper into two columns. For a few days, write down in the left column all the negative thoughts that come into your mind. Positively rewrite each thought in the second column.

Practice doing this in your mind until it becomes a habit.

For eg:- "I'll never get this finished by the end of the day!" could become, "I'll probably get most of this finished by the end of the day!"

Learn to communicate. Not saying the things we feel can lead to a sense of frustration, hurt, anger or anxiety. If you find communicating difficult or are afraid of arguments then without any waste of time, learn from the following Mountain Story. Mountain Story- An interesting short story "A Son and his father were walking on the mountains. suddenly, his son falls, hurts himself and screams: "AAAHHHHH!!!"

To his surprise, he hears the voice repeating, Somewhere in "AAAHHHHHHH!!!"

Curious, he yells: "Who are you?"

He receives the answer: "Who are you?"

And then he screams to the mountain: "I admire you!"

The Voice answers "I admire you!"

Angered at the response, he screams: "Coward!"

He receives the answer: "Coward!"

He looks to his father and asks: "What's going on?"

The father smiles and says: "You are a champion!"

The boy is surprised but does not understand.

Then the father explains: "People call this ECHO, but this is life.

It gives you back everything you say or do.

Our life is simply a reflection of our actions.

If you want more love in the world, create more love in your heart.

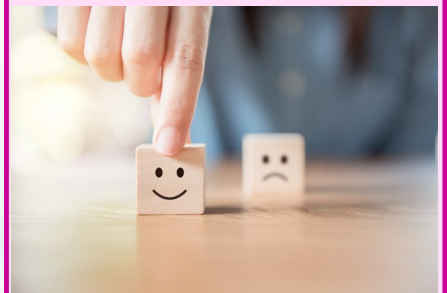

If you want more Competence in your team, improve your competence.

This relationship applies to everything, in all aspects of life; Life will give you back

everything, in all aspects of life; Life will give you back everything you have given to it."

Your life is not a coincidence. It's a reflection of you!
