

Singhanians' Chronicle

From the editor's desk -

"Every day is a new beginning. Treat it that way. Stay away from what might have been, and look at what can be."

– Marsha Petrie Sue

It gives me immense pleasure to wish my readers a very happy and prosperous New Year. Hope you all had a fabulous start. The new year brings with it new hope, opportunities and promises. A New Year is a time to set new goals, make resolutions, look ahead, and learn from the mistakes of the past year. The year gone by threw many challenges at us but the unflinching Singhanian spirit turned them all into opportunities. Our team is all set to welcome all that this year too has in store for us.

Positivity always wins..... ALWAYS !!

DISCIPLINE: A way of life

Discipline is an important virtue in one's life. But the question is, what really is discipline?

Discipline is the act of keeping our body, mind and soul under control and doing all the works in the right manner by following the orders given by our teachers, parents and elders. It is not doing the right things out of fear of our parents or teachers, but doing those right things when you are all on yourself and nobody is watching you. Discipline in students' life is very necessary. A team can't perform well without discipline. Sometimes in sports, a team with so many renowned and experienced players loses the game due to lack of discipline. In a similar way, a good student may not cover his syllabus in the stipulated period of time if he doesn't follow discipline. So it can be concluded that Discipline is a part and parcel for a student to get success in life.

"Discipline is the difference between what you want now and what you want most."
