September 2020

From the editor's desk -

"You are worth more than you know, capable of more than you can think, and loved more than you can imagine."

More than often, it is our belief that holds us from doing things. We forget that our thoughts determine our actions and we let them rule us. If we are running into a roadblock, we need to recheck, if the blockage is actually there or we have created a mental block about it. Usually discussing things with friends/family/mentor helps in clearing the doubts.

So my dear students, whenever you are faced with trouble, know that all your near and dear ones are there to steer through difficult times. Go out, spread your wings, conquer the challenges. The world is watching... go, seize the moment!!!

HINDI HANDWRITING COMPETITION

"Handwriting is the reflection on one's personality"

Beautiful and neat handwriting is an asset to the students. It improvises their performance and ability to score well in exams.

Keeping this in mind Hindi handwriting competition was organised for the students of class 1 and 2. In the zoom session, the students wrote a few lines in the copy and decorated it beautifully. They shared their

work on WhatsApp in the form of pictures with the class teacher, who in turn forwarded it to the Panel of judges. The judgement was it based on the parameters like neatness/ correct formation/ presentation.

Dear Singhania School,

It's been a long time since I met you and I really really want to come back to you.

I wish to walk with my buddies and what if I could fly high in the backfield singing those birthday wishes for my champs.

I miss those assembly chimes too. Also a big thanks to our respected Principal Sir for adding charm to the school, for making us believe in ourselves, for giving us lots and lots of opportunities.

When it comes to the class, every teacher is a mother, or else I should say a blessing and to be honest I have felt this in every teacher out there, the purity of the soul, the selflessness, the dedication, and the love they shower. I miss those days when we used to write everything in our decorated registers especially Supriya ma'am's notes, this was a tough job though but yes sitting in her class was pure bliss and when I see our constitution, it reminds me of Surekha ma'am the way she teaches everything is just amazing.

Indeed Kavita ma'am's literature world brings me happiness and at the same time, I wish to study from Hina ma'am too! Although I ain't good at maths but those Devendra sir's trigonometry classes bring back so much of memories. I wish to go to the computer lab to show my practical files to Romi ma'am once again and I wish to read my hindi kavitayain in front of Jyoti Ma'am once again.

The economic book reminds me of Archana ma'am and Charu ma'am every day. Sukhpal Sir stands with us through thick and thin in every way. Also, I have never seen a teacher like Shilpa ma'am and Usha ma'am, so calm and so pure. How can I forget Anjali ma'am, the brilliant soul of our school.

When it comes to geography, Shalini ma'am's notes are everything. Interest knocks the door when Shaily ma'am enters the class. The art room fills me with its shades and colours and I wish to show my drawing files to Sheenu ma'am and Sudha ma'am once again. Rajab sir's melodies bring me peace and I want to sing with Bhagesh ma'am in music room.

Please open the school.

Sincerely,
yours child

Have faith in your abilities, everything else will fall into place if you believe in yourself. It is impossible to put into words how much Singhania has changed my life. It has been 15 years in this institution and I have learned a lot. I'm so lucky to have Rajab sir as my guru and my father. As a parent, he believed in me and let me pursue my passion. I can't thank all my teachers enough who nurtured me. They gave dreams to my eyes and strength to accomplish them. I'm very thankful to the respected Principal Sir for giving opportunities to perform on big and prestigious awards. I have won national level titles five times. I love you my alma mater.
