We should not stop during our tough times rather we need to be more positive during the difficult times. By embracing optimistic approach and with a solution oriented mindset, we are able to tackle tough situation productively. After battling and defeating the most challenging situation of pandemic, our life is back on track and with the government orders our schools have reopened and children are happy to return to school as they can interact with their peer ,teachers and have fun on breaks and sports activities. After staying for so long at home they realized the importance of school and it is evident through their enthusiasm and happy faces. Singhania set an example for our students that nothing is impossible and we can achieve our goal and desires with our hard work, dedication and positivity. Now our children are ready to face any life challenges as they had experienced every aspect of life and learnt to stay focused and positive.
